DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2 December 2004 has been entered.

2. In response to the rejection of claim 64 under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement, Applicant asserted that there was support for 45A55 being crossed to a NMS line on pg 6-7 of the specification (response filed 2 December 2004, pg 7). That portion of the specification does not provide support for that specific cross; however, support was found on pg 24, lines 4-10.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lila Akrad on 17 February 2005.
